FARM TRIBUNE

Vol. XVII, No. 14

PUBLISHED WEEKLY — PORTERVILLE, CALIFORNIA

Thursday, September 19, 1963

POTTERVILLE GOT back in to the top spot in community booth competition at the Tulare County fair this week when judges put the 1963 Porterville chamber of commerce exhibit in first place in the incorporated cities category, while Terra Bella topped the unincorporated communities, winning over traditional rival, Strathmore that this year placed

second. Tulare, for years the chief contender with Porterville for top honors, dropped into fourth place, while Visalia took second, Lindsay, third, and Dinuba, fifth. Trailing Terra Bella and Strathmore in the unincorporated community category were Pixley, third, Alpaugh, fourth, and the West Visalia Grange booth, fifth. (Farm Tribune photos)

Still Tickets For Way Luncheon

POTTERVILLE, Sept. 19 — Tickets are still available for the Senator Howard Way luncheon tomorrow, Friday noon at the Paul Bunyan restaurant, with sale limited to 100. Tickets can be purchased at the Porterville chamber of commerce office for \$5.00, with funds raised to go into the Porterville museum fund. No tickets will be sold at the restaurant.

FRIENDLY ATOM TOPIC OF MEETING

POTTERVILLE, Sept. 19 — Plans of Southern California Edison Company to build a nuclear power plant twice as large as any other U.S. atom plant now in existence will be outlined by A. L. Guidero, supervising mechanical engineer for Edison, in a talk before the Porterville Methodist Men's club, Monday evening, September 23, at 6:30 p.m.

Titling his talk, "Meet The Friendly Atom," Guidero will offer, also, a simplified explanation of nuclear power, how it was developed, where it stands now, and where it's headed in the future. The Edison engineer will employ color slides to illustrate his talk.

Slides will include an artist's rendering of the proposed "San Onofre Nuclear Generating Station" which Edison plans to build near San Clemente, and pictures showing how its nuclear system works.

"The average person, I think, tends to regard nuclear energy as something too complex, too 'far out,' to be understood by anyone except the scientists," Guidero commented. "I welcome the opportunity to prove that this is not true."

All men are invited for dinner; for reservation call 784-4232.

SPRINGVILLE HORSE SHOW OCTOBER 27

SPRINGVILLE, Sept. 19 — Junior riders up to 18 years of age who reside within the Porterville Union High School district are invited to compete for ribbons and trophies at the annual Horse Show and Gymkhana sponsored by the Springville Lions club.

Date for the event in the Springville Rodeo arena is Sunday, October 27; there is no entry fee nor admission charge. Rules for the gymkhana will follow California State Horsemen's association regulations; rules for horse show events will follow standards of the American Horse Show association.

Entry blanks can be obtained at Porterville high school, Porterville College and at Bartlett school, in Porterville, also from Springville business firms.

Working on show arrangements are Dick Coon, president of the Springville Lions club; Harry Scruggs, club member, and Peggy Pearson, Springville horsewoman. Further details are carried on the entry forms.

The event is staged by the Springville Lions as a community event primarily for benefit of teenage, and younger, riders.

Junior Fat Stock Sale Saturday Highlights Weekend At County Fair

TULARE, Sept. 19 — Junior fat stock sale Saturday at 9 a.m. will highlight weekend activities at the Tulare County fair, now in progress, with Future Farmers and 4-H club members from throughout the county offering fat beef, fat barrows and fat lambs as the final step in project completion.

Groomed, fitted and finished for fair competition, the fat animals represented "bargain buys" for freezers and home lockers. Leading off the sale will be the grand champion fat beef, shown by Gary Reed, of the Burton 4-H club.

Other features of the fair that runs through Sunday include free vaudeville in Elliott auditorium at 12:30 and 6:30 daily and the Foley and Burke carnival on the fair grounds.

Grandstand show tonight, Thurs-

REED SHOWS GRAND CHAMP

TULARE, Sept. 19 — Gary Reed, of the Burton 4-H club, showed the grand champion steer at the 1963 Tulare County fair — a lightweight, 840-pound Hereford. Reserve champion was shown by Don Awbrey, Strathmore Future Farmer.

day, at 8 o'clock, features the fair's annual livestock parade, followed by free fireworks; at 9 p.m. there will be dancing in Elliott auditorium to the music of Jim Doval and (Continued On Page 8)

Deer And Bear Season Opens On Saturday

POTTERVILLE, Sept. 19 — The big trek through and from Porterville into the mountains of the Sequoia forest is already on and will gain in momentum for the next couple of days as hunters move out after deer and bear in the Sierra; the season on both deer and bear opens Saturday, September 21.

Bag limit for deer is one buck, forked horn or better; bag limit on bear is two per season. Deer season runs through November 3; bear season through January 1.

Official report from the California department of fish and game concerning Tulare county is: The Sequoia and Inyo National forests and the public lands in Long valley and Kennedy meadows are (Continued On Page 8)

GRAND MARSHALS FOR PARADE

POTTERVILLE, Sept. 19 — Two grand marshals have been named for Porterville's 42nd annual Homecoming parade on November 11 — Frank Pratt, a longtime resident of the Porterville community and a past commander of Porterville Post 20, The American Legion, will represent the Legion; Congressman Harlan Hagen has been selected by Mt. Whitney Post 2001, Veterans of Foreign Wars.

Editorial Comment

THE DISTINGUISHED DROPOUT

A great many words of admiration and esteem have been written and spoken about Norman R. Sutherland, whose death last week not only deprived Pacific Gas and Electric Company of its board chairman, but took from California one of its truly distinguished citizens.

Mr. Sutherland earned all his encomiums. His fifty-year career with PG&E, ranging from street lamplighter to top executive officer, was marked by enormous contributions to the growth of his company, and of his state. As a civic leader he set a high standard for others to emulate.

It is, perhaps, as a self-made man that Mr. Sutherland made his most warming contribution to his generation. A dropout, as we call it now, in his high school days, he worked to support himself and his family. Even then he did not neglect his education, although it had to come the hard way, outside the halls of formal schooling.

To young people today who face economic hardships, and the sad necessity of leaving school too soon, Norman Sutherland should be an inspiration. It is possible to make a good life out of adversity. It is possible to grow, and learn, and achieve despite financial handicaps. He did it.

AN EXCELLENT Lindsay community booth placed third in its category in the 1963 Tulare County fair that is now in

progress, being edged out by two larger communities, Porterville and Visalia, but beating out Tulare and Dinuba.

Time Out

By Davis Harp

PIRATES PROVE THEMSELVES RUGGED AND CAPABLE OUTFIT

Porterville College's undermanned Pirates had their moments Saturday night, but finally fell before the tough COS Giants, 20-6.

We think that the Pirates, who use a number of freshmen on both offense and defense, could give the veteran Giant eleven a real battle if the game could have been scheduled at a later date. Even with the liberal sprinkling of fresh, they showed themselves to be a rugged and capable crew.

The Pirate offense can be described in two words. Kelton Dotson. The big halfback (6-3, 220 pounds) has the making of a very fine football player. He took a flat pass on the Pirates' first offensive play and raced 70 yards for a touchdown, only to have the official say he was out of bounds

on the COS thirty five. Dotson shows good power and can simply outrun everyone if he gets the chance. Quarterback Joe Carrillo can pass, if given the chance, but he is very short and seems to have a little trouble operating behind the line. Cliff Brown, fine quarterback and running back for Porterville high school two years ago, showed none of his former ability in the Pirates' season opener.

The Pirate defense was tough, but inconsistent. Big Mark Gartung was almost indestructable at the left tackle spot and gave the Giant backs a battering. Lack of size does not seem to bother Alfredo Dulay, who does a great job as a corner line backer. He is the deadliest tackler on the Pirate defense. Danny Roberson, another feather merchant, does an outstanding job as a safety man. He defends well on passes and comes up hard on running plays and tackles with authority.

The Pirates will win their share of games this year. The potential is there and we think that the fresh members of the squad are adjusting well and will develop quickly enough to give the veteran Pirates plenty of help.

The Pirates travel to Lancaster Saturday for a game with the Antelope Valley Marauders. The Pirates blasted the desert rats last year, and we think they have the horses to repeat this year.

The Porterville High School Panthers kick-off their 1963 season Friday night at Jamison Stadium as they meet Foothill High School of Bakersfield.

Foothill, a new school in the

CANCER SOCIETY NEAR FUND DRIVE GOAL

EXETER, Sept. 19 — The Tulare County Branch of the American Cancer Society came within \$2,760.20 of reaching its 1963 fund raising goal, it has been announced by Mrs. Paul Dobson of Exeter, 1963 fund raising chairman of the branch. Mrs. Dobson said the branch raised a total of \$27,464.80 which is equal to 90.8 percent of this year's goal. It compares to \$27,244.09 raised in 1962.

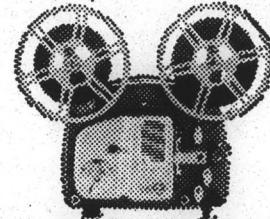

PORTERVILLE LIBRARY LISTS NEW BOOKS

To find a chapter in World War II which has until now been totally overlooked is indeed a surprise. But Jon Kimche, in SPYING FOR PEACE, has come up with one. How did little Switzerland manage to keep her sovereignty and her neutrality when she was completely surrounded by Nazi-held territory? The answer is found in a delightful study of cloak-and-dagger activities, of gambling and bluffing for time, and of determination in the face of appeasement forces within the country. The final section, "The Impossible Art of Being Neutral", is a penetrating discussion of Switzerland's example, for today's non-aligned nations.

Gaston Means, a romantic egomaniac, spent his life cheating, bilking, lying and fabricating wonderful stories at a moment's notice. In SPECTACULAR ROGUE, by Edwin Hoyt, we have a play-by-play account of this unbelievable existence. Having, for a very short time, been a member of the FBI and the Treasury Department, he used the information obtained to gain great sums from individuals under investigation. The victims would go to jail just the same, and not dare tell to whom they had paid money for help. Having made millions, he left \$17.26 when he died in prison. A truly remarkable, fascinating yet horrible life.

When King Saud wanted to borrow a cool, ARAMCO turned Jose Arnold over to him. The result is a book by Arnold called GOLDEN SWORDS AND POTS AND PANS. Evidently the enriched Bedouin is not capable of adapting in any sanitary way to a fixed residence. The disorganization surrounding the King, a kindly and courteous employer, beggars description. He is robbed right and left by his advisers, who stole his supplies and sold them back to him. This is a long look at thievery and waste in a million dollar a day monarchy.

Twenty years ago Edna Ferber wrote the first volume of her autobiography, PECULIAR TREASURE. This month we have Volume two, A KIND OF MAGIC, and a delightful book it is. Rather the biography of a writer, than a woman, it should be required reading for young aspiring writers.

See the fabulous 18-5 projector, the only projector that shows any 8mm film in slow motion. See it run at normal speed, "Living Still" slow motion and in reverse.

CHARGES ANSWERED ON FARM LABOR

VENTURA, Sept. 19—Mexican and American farm workers in California are both covered by workmen's compensation insurance, they receive equal pay for similar work, and in the case of single workers they are given equal housing.

This was the reply issued today by Carl Samuelson, Ventura, chairman of the California Growers Farm Labor committee, to repeated charges from Washington that domestic farm workers are not given the same working conditions as braceros, the imported temporary fieldhands from Mexico.

Samuelson's statement, issued through the Council of California Growers, contained these points:

1. Workmen's compensation is guaranteed by California law.
2. Equal pay for domestic and Mexican farm workers is guaranteed under U.S. Public Law 78.

3. Single domestic workers in California are regularly given the same housing and food as the braceros.

Noting attempts in Congress to amend P.L. 78 to compel farmers to offer domestic workers guaranteed periods of employment, Samuelson had this to say:

"Our objection to this amendment is that it is both unnecessary and unwise. Unnecessary because

HOSSCAR AWARDS GIVEN AT DINNER

PORTERVILLE, Sept. 19—Nancy Lumley and Frank Sheldon were awarded Hosscars for best lead performances in the Barn theater last season, and Gary Garlund received the best director award. All were connected with the production of "Critic's Choice".

The awards were the fifth for both Mrs. Lumley and Sheldon, the problem with many domestic workers is not that of the farmers guaranteeing them employment but, rather, that of their guaranteeing the farmers they will not quit before the harvests are finished.

Many California farmers pay bonuses to workers who complete a harvest. Unwise because this amendment is nothing more than an ill-concealed attempt to attempt to extend the power of federal bureaucracy."

and the second in a row for Garlund as a director. Elizabeth Dobson, of Exeter, received her seventh Hosscar for her minor supporting role in "Janus".

Other Hosscar winners were: David Garlund, a posthumous award for a minor supporting role; Beverly Gorne and Larry Cotta, major supporting roles, and Lessie Lassiter for her bit part — all in "Critic's Choice."

Dennis Bender received a bit role Hosscar for his work in "Anniversary Waltz"; Dick Newman received a special award for outstanding service to the Barn theater.

Awards were presented by Joan Tewksbury LaPiere, of Hollywood, and Bill Pukmel, of Porterville; master of ceremonies was Robin Edmonds. A stage curtain was presented to the Barn by Mrs. Ralph Gill, Porterville Women's club house chairman.

On the entertainment program were: "The Sickels Sisters and

TULARE COUNTY manager for Coberly & Plumb, agricultural chemical supply and service firm, is Charles E. (Chuck) Dofflemyer, above, whose appointment was recently announced by R. J. The Crocker-Anglo Farm Banker

...a helpful man to know

Helping the farmer operate more profitably is the most important part of a Crocker-Anglo farm banker's job. The farmer pictured above could tell you what that means.

Here he's harvesting his 80 acres of sugar beets. But he also has considerable acreage in tomatoes, barley, field corn, milo, and beans.

In addition, he also does some custom work for his neighbors in beet digging, hauling, land-leveling, plowing, etc.

With 398 acres on an operating basis and subleasing another 240 acres, this farmer grosses around \$67,000 annually. Costs are in the neighborhood of \$55,000 annually. But even with a cash operating

margin of \$12,000, there are times during the year when the lack of extra funds can be a hardship.

He talked this problem over with us. Within the next two days it was our pleasure to set up a line of credit for him here at Crocker-Anglo that will amply take care of his season's needs.

Now he's able to take advantage of profitable opportunities fast, knowing the money he'll need for additional farming projects is always "on tap."

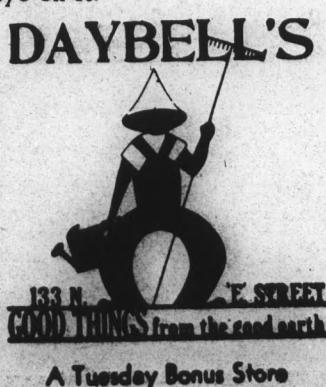

Crocker-Anglo grew up with California agriculture. We know this business, know it calls for fast service and strong faith in farmers with the urge to better their farms and themselves.

Call on CROCKER-ANGLO... most helpful bank of all

Harley Stewart, assistant manager of Crocker-Anglo Bank's Fresno office, spent 14 years on the land and 11 years with the U.S. Dept. of Agriculture before entering the banking field. His experience is typical of the C-A agricultural loan specialists who serve California farmers.

We Only Heard

BY BILL RODGERS

WE MUST have been about six years old and just starting to school when we met Charles Bigham. It was by the drinking fountain that used to be at Main and Putnam; our father introduced us and told us that we had better watch out because Mr. Bigham would be right after us if we didn't behave in school . . . For some reason this incident remained with us.

THEN WE recall being sort of "taken in" by Mr. and Mrs. Bigham during a summer that we spent at Camp Nelson after the death of our mother while we were still in grammar school. My, the biscuits that we used to eat at the Bigham cabin!

LATER WE knew Mr. Bigham in connection with Rotary, then

in more recent years, after he was suffering from the illness that afflicted him over a period of years, we talked with him on occasions about early-day history, and used material from some of the old newspapers that he had saved — papers dating back to the 1870s. And we were one of the some 35,000 Tulare county grammar school students whose graduation diplomas he signed.

HE WAS one of those people we refer to as a pioneer, born on July 31, 1880, at Woodville, his father having crossed the country by covered wagon to settle at Woodville in 1857, and his mother coming there in 1873.

SCHOOL WORK was his profession, and his strong influence was felt locally, in the county and in the state over a period of 44 years as a teacher, as superintendent of Porterville elementary schools for 27 years and as a member of the

county board of education for 43 years, 35 years as president of the board.

A MOST interesting period were the months right after he became superintendent of Porterville schools in 1909, since there was some question then as to just who was running the schools, the teachers and administrators, or the students. But the question was not long in being answered — Mr. Bigham proved to be a little bigger than the biggest boys, and the situation straightened out pronto. (Maybe today we could stand a little shot of the respect for authority that Mr. Bigham established in the minds of students back in the "old days".)

COUNTY SUPERVISOR J. W. Martin appointed him to the county board of education in 1907; he served as president of the board in the 1910-11 year, then for 34 straight years, starting in 1916. During this period he worked closely with the state board of education and the state and county principals' associations.

HE SERVED as president of the Porterville Rotary club and had a perfect attendance record over a period of 22 years; he was a 50-year member of Porterville Lodge 303 F&AM, and was a Past Patron of the Eastern Star. He was active in the Congregational church; served as a director of the Porterville chamber of commerce, and worked with the Red Cross for many years. He and Mrs. Bigham, the former Violet Milligan, observed their golden wedding anniversary in June of last year.

HE TAUGHT, as a young man, at the Salem school, (it later became the Terra Bella school) at the Harmony school, and at Orosi before coming into the Porterville

CHARLES BIGHAM, a native of Woodville and a lifetime resident of Tulare county, who died last Friday at the age of 83 years. He served as superintendent of Porterville Elementary schools for 27 years; was in the teaching profession for 44 years and was on the Tulare County board of education for 43 years, serving as president for 35 years.

system. In school work and in community work he was a forceful man whose influence was felt in any field that he entered. He was 83 years old when he died last Friday morning.

SO THE years go by; young people become old; new generations appear; the past fades with the years. But wrapped up in passing years is the pattern of the future and in each generation there are those persons who help to shape their community, to influence the lives of those with whom they come in contact, and, in so doing shape to some degree the future. Charles Bigham was one of those persons.

CHAPEL CHIMESBy
Rev. N. J.
Thompson

What is the secret of spiritual power? Ask a dozen Christians, and you'll be puzzled by a dozen different answers. The Bible says, "The joy of the Lord is your strength."

Carrying the bright banner of God's gladness into battle, we can meet every trial and temptation with a shout of victory. Recognizing the importance of this great spiritual truth, the apostle Paul emphatically orders: "Rejoice in the Lord; and again I say, Rejoice!"

Are you distressed, sick, suffering? Listen to that prince of preachers, C. H. Spurgeon: "When God made thee a believer, He meant to try thee. When a shipwright builds a vessel, he builds it for the sea and the storm. But our troubles will surely bring us blessings; they always have."

With the "joy of the Lord" sustaining us, we can stand up to trouble, trials, and persecution. We can even "rejoice and be exceeding glad", knowing that Jesus has promised us a great reward in heaven. See Matthew 5, verse 12.

How do we get this heavenly happiness? Well, Jesus promised His followers (which includes you and me): "These things have I spoken unto you, that My joy might remain in you, and that your joy might be full" (John 15:11).

This joy of the Lord comes then as He speaks to us through His Word. The Bible is packed with promises. These promises are not to be viewed as curiosities for a museum. They are to be used as everyday sources of help and comfort. Instead of cracking up under modern pressures, we will find the Bible a secret reservoir of strength, an inner peace, a "song in the night", a glad cognizance of God's loving care that the world cannot give nor take away.

WHAT'S DOING**WHAT'S DOING**

R. C. Board, your Telephone Manager in Porterville

Did you know that newspaper pages can be sent through the air by radio waves? This happens in San Francisco, for example, when each page of *The Wall Street Journal* is set in type. Complete pages are electronically "photographed" and transmitted over our microwave and cable system to the Journal's facsimile receivers in Riverside, California. There a negative is printed and removed (as shown at right), a metal plate is made, and the presses print a duplicate of the paper for Southern California. It's another example of how improved communications serve in more and more ways.

The front pages of your phone book contain information to help you get the most from your telephone service. Why not become familiar with them?

If your youngsters at college don't write home as often as you'd like, here's one way to keep in touch. Why not arrange a time for a weekly telephone call? Remember, nothing says "you" like your voice.

Here's an inexpensive and practical item you'll want to know about. It's a separate, personal listing in the Porterville telephone directory for various members of your household. It's particularly helpful if their last name is different from yours. Each additional name listed in the directory is only 35c a month. For information, call our business office.

One gift that's sure to work many wonders is a contribution to the United Community Fund. Since the proceeds are shared by most of our voluntary health and welfare agencies, your donation enables them to give a helping hand to children, teenagers and adults in all walks of life.

MEETING SCHEDULED**

PORTERVILLE, Sept. 19—Letters have been sent to 50 organizations in the Porterville area asking them to have a representative attend an organizing meeting, September 24, of a Porterville Council welfare fraud unit and a work projects coordinator in the county welfare department.

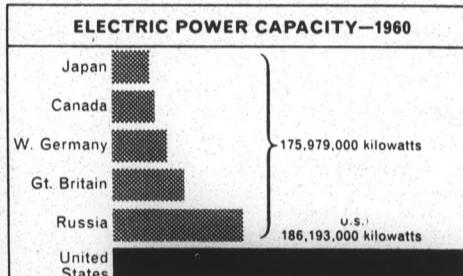

of the San Joaquin Valley Community TV association, according to steering committee chairman, Dr. James T. Shelton. Time and place of the meeting will be the Porterville Women's Club building at 8:00 p.m. Goal of the association is to bring Education TV to this area by September, 1965, through the association's own TV station telecasting on Channel 18 from Fresno.

**Answers to key questions
about the investor-owned
electric utility industry
and the all-electric future**

How does the USA compare with Russia in power?

Every way you measure it, America is well out front in the race for electric power. The production of electricity per person in the USA is more than three times that of the USSR. Looking far into the future, experts do not foresee Russia, with its government-operated system, ever catching up with USA.

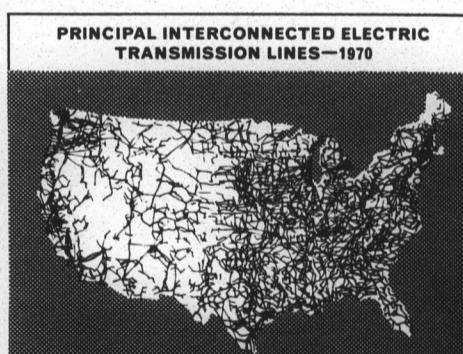

There is hardly anything in the history of industry to compare with the steady, orderly progress made over the past 80-odd years by the electric industry. This chart shows how we stand in electric power capacity compared to other nations.

How well is the USA served electrically by investor-owned utilities?

Virtually every community, farm and hamlet in USA is served with low-cost electricity by investor-owned utilities such as Southern California Edison. Their transmission lines crisscross the face of America, bearing the low-cost power needed for modern living today and in the bright, busy all-electric future.

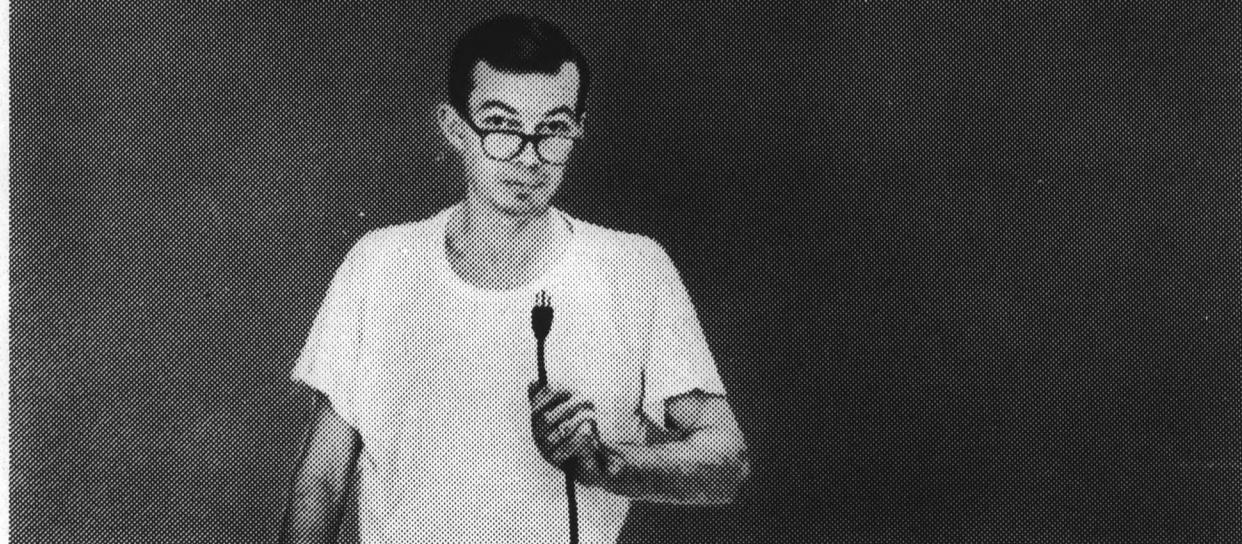

Here's how America's principal electric transmission lines will cover the U.S. by 1970.

By 1970 the investor-owned electric companies expect to nearly double their present generating capacity. By 1980 this figure is expected to reach over three and one-half times today's total.

This growth is pretty staggering, even in a land where growth is taken for granted. But when it is remembered that this surging growth of low-cost electricity comes on a *pay-its-own-way* basis—with not a penny of tax support—it is doubly significant. It is, fortunately for us taxpayers, totally unnecessary for the government even to attempt or consider duplicating the service and facilities of the investor-owned utility companies of America.

For more details, send for your copy of "The Investor-Owned Electric Utility Industry." Write: The Advertising Department, Southern California Edison Company, P.O. Box 351, Los Angeles 53, Calif.

Most powerful man in the world

In America, where by far the greatest amount of electricity is produced and used, the average worker is provided with electric power *equal to the energy of 456 able-bodied men*. With this at hand, he's the most powerful man in the world! No other system has ever come close to matching the record of the investor-owned electric companies of America. We have more electric power capacity than the next five countries combined—*three times* the capacity of the Soviet Union. They'll sure never bury us electrically! To see how companies like Southern California Edison put the punch in America's power, please read right.

NOTICE OF HEARING TO ABANDON EASEMENTS

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of Tulare has adopted a resolution, pursuant to sections 50430-50445 of the Government Code, declaring its intention to abandon the storm drain basin easements which were conveyed to the County by a deed recorded in Volume 2396, at Page 317 of Official Records in the Office of the County Recorder of Tulare County. The real property subject to said easements is situated in the County of Tulare, State of California and described as follows:

Lots 26, 27, 28, 29, 30 and 39 of Tract 330 as per a map thereof on file in the Office of the County Recorder of said County in Volume 23, Page 70 of Maps.

A hearing regarding said abandonment will be held by the Board of Supervisors of the County of Tulare in the Chambers of said Board, in the Courthouse at the County Civic Center, Visalia, California, on October 8, 1963, at 10:00 a.m., when and where any interested person may present evidence thereon.

BY ORDER OF THE BOARD OF SUPERVISORS, COUNTY OF TULARE, STATE OF CALIFORNIA.
Dated: September 10, 1963.
(SEAL)

CLAUD H. GRANT, County Clerk and Ex-officio Clerk of the Board of Supervisors of the County of Tulare.

STATE COTTON CROP ESTIMATE UP 40,000 BALES

SACRAMENTO, Sept. 19 — Production of California cotton is forecast at 1,700,000 bales, up 40,000 bales from last month, according to the California Crop and Livestock Reporting service.

A crop of this size would be 11 percent less than the 1,912,000 bales produced in 1962 and two percent less than the 1957-61 average of 1,740,000 bales. An 11 percent reduction in harvest acreage is a primary factor in lower production. The crop is to be harvested from an estimated 723,000 acres.

California's cotton crop continues to make good to excellent progress and a prospective yield of 1,129 pounds of lint per acre is indicated, only slightly less than last year's record high of 1,132 pounds.

Plants are making lush growth with continued irrigation, and have a good set of heavy bolls. The crop is estimated to be about two weeks later than normal.

State taxes on gasoline, diesel and other fuels, and on the receipts of buses and trucks reached an all-time high of \$418,195,000 during the fiscal year that ended June 30.

RED CROSS PLANS PROGRAM FOR 1964-65

POTTERVILLE, Sept. 19 — Al Veterane, new Red Cross field director, met with the local Red Cross board of directors recently. Veterane offered suggestions regarding the early organization of plans for the 1964-65 Red Cross campaign. An informal discussion of the campaign followed the report of Mrs. Pearl Curtis, executive secretary that the 1963-64 fund campaign was far short of providing budget needs for the fast growing Porterville area.

Other reports were given on the successful Red Cross swim program by Myron Wilcox, instructor, and Tex Davis, chairman, with 1,164 enrolled for lessons.

Included in the resume of past chapter activities, it was announced that 300 persons had received standard first aid certificates in classes conducted here.

Veterane announced that Elmo Patterson, Red Cross water safety

OPEN HOUSE SET FOR NEW GIN

HANFORD, Sept. 19 — Central Valley cooperative will hold a public Open House October 9, to introduce its ultra-modern, high-capacity ginning plant at Hanford to the Western cotton industry. General Manager Ray Noland states that completion of the \$400,000 modernization project for the 1963 cotton harvest marks an important milestone for the cooperative.

and first aid instructor will conduct classes here November 4-8 for those wishing to qualify for first aid certificates or as swim instructors. To be eligible for swim instructor classes, individuals must have passed senior life saving or part one swim instruction. Mrs. Curtis requested that those wishing to enroll in either of these programs, call the office of the local Red Cross chapter, phone 784-3374.

Mrs. Carl Larson was welcomed as a new member of the local Red Cross chapter board of directors.

Time Out

(Continued From Page 2)

Bakersfield area, is of unknown quality, but the oil city has a wealth of football players and could easily field another good football team.

The Panthers are of unknown quality in some spots. The backfield is a solid letterman crew topped by halfback Larry Brown and quarterback Jim Crichton. The line is where the question marks appear. The horses up front have size and mobility, but very little experience. If the rookie tackles, guards, and ends develop on schedule, the Panthers are going to be a very fine football team.

Deer And Bear

(Continued From Page 1)

open to hunting but Sequoia and Kings Canyon National parks are closed to hunting. Most foothill lands are privately owned.

Deer numbers are similar to last year but deer are more scattered than they have been for the past two years. Average or better hunting is predicted for the back country just outside the southern boundary of the Sequoia National park. Mountain roads are in good condition. The Long valley and Rockhouse basin roads are in poor condition.

Successful applicants for the Monache Antlerless hunt are advised that the best chance for success will be late in the season or after the regular deer season closes.
